DAN THISTLETHWAITE
SOFTWARE DEVELOPER

PROFESSIONAL SUMMARY

I am a frontend-focused software developer specialising in React. As well as being technically proficient in modern JavaScript, I am design-minded, allowing me to create performant and intuitive UX.

PROFESSIONAL HISTORY

Frontend Engineer

Voyak AFS | Jan 2021 - Present

- Design and create all customer-facing products.
- Collaborate with backend developers to create and consume APIs.
- Input into company business decisions.

Web Developer and Designer

Freelance | Feb 2019 - Aug 2020

- Met with clients, planned sites based on their needs.
- Implemented iterative designs based on client feedback.
- Developed sites using WordPress and HTML/CSS.
- Became well known locally as a reliable freelance developer.

ACADEMIC BACKGROUND

University of New England

Bachelor of Computer Science | Mar 2016 - Dec 2020
Software Development Major

CORE COMPETENCIES

HTML
CSS
JavaScript
React
Version control (Git)
TypeScript
